TRADEMARKS: The trademarks, logos, and service marks (collectively, "Marks") used herein are the property of Siemens or other parties. No one is permitted to use these Marks without the prior written consent of Siemens or the owner of the Marks, as applicable. The use herein of third party Marks is not an attempt to indicate Siemens as a source of a product, but is intended to indicate a product from, or associated with, a particular third party. A list of Siemens' Marks may be viewed at: [www.plm.automation.siemens.com/global/en/legal/trademarks.html](http://www.plm.automation.siemens.com/global/en/legal/trademarks.html). The registered trademark Linux<sup>®</sup> is used pursuant to a sublicense from LMI, the exclusive licensee of Linus Torvalds, owner of the mark on a world-wide basis.

### **About Siemens Digital Industries Software**

Siemens Digital Industries Software is a global leader in the growing field of product lifecycle management (PLM), manufacturing operations management (MOM), and electronic design automation (EDA) software, hardware, and services. Siemens works with more than 100,000 customers, leading the digitalization of their planning and manufacturing processes. At Siemens Digital Industries Software, we blur the boundaries between industry domains by integrating the virtual and physical, hardware and software, design and manufacturing worlds. With the rapid pace of innovation, digitalization is no longer tomorrow's idea. We take what the future promises tomorrow and make it real for our customers today. Where today meets tomorrow. Our culture encourages creativity, welcomes fresh thinking and focuses on growth, so our people, our business, and our customers can achieve their full potential.

# Chapter 1

## ODB++ Viewer Installation

---

This document provides instructions for installing the ODB++ Inside for Cadence Allegro software on a supported operating system.

<b>Running the Installer.....</b>	<b>5</b>
<b>Installation Directory Structure.....</b>	<b>12</b>
<b>Troubleshooting the ODB++ Viewer Installation.....</b>	<b>13</b>

## Running the Installer

As you run the installation wizard, you must specify the location of the ODB++ Viewer directory.

### Restrictions and Limitations

No special characters other than Underscore ( ) and Dash (-) are allowed in the installation path.

### Prerequisites

Access to the latest installation package *odb-plus-plus-viewer-64-bit.zip*.

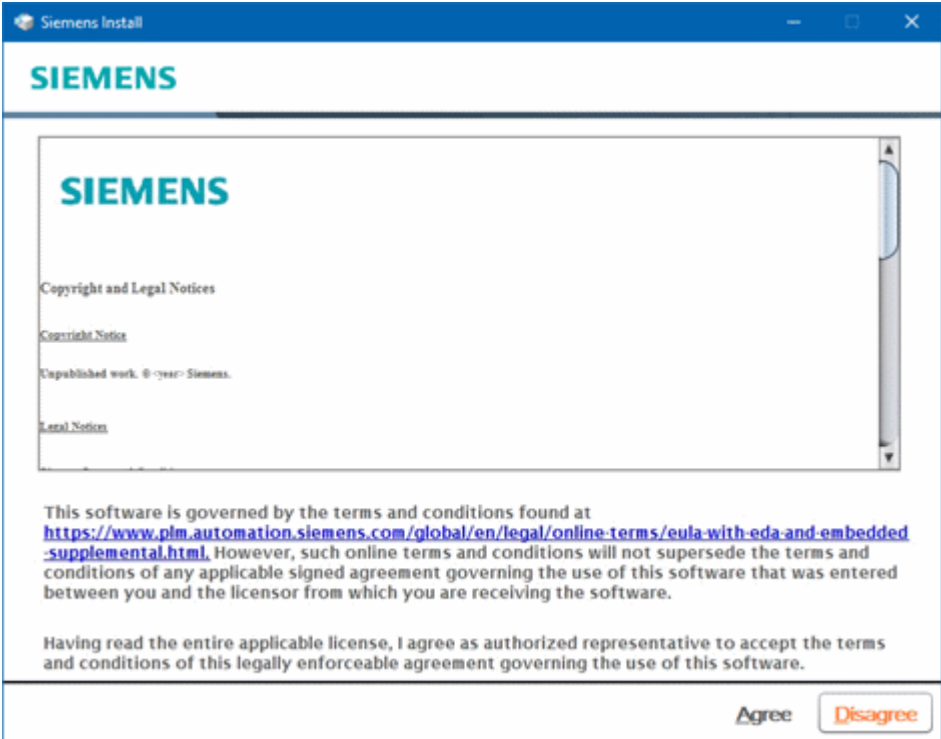

### Procedure

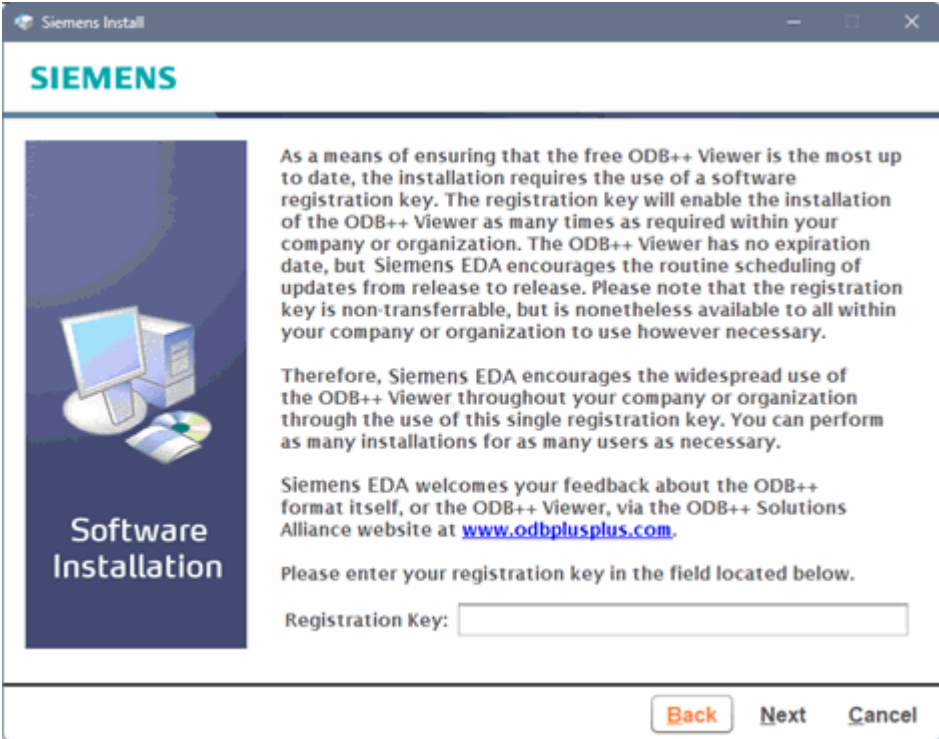

1. Log in with administrator rights.
2. Close all open applications.
3. Extract the content of the ODB++ Viewer installation package to a local disk.
4. Within the extracted content, locate and run the installer executable:

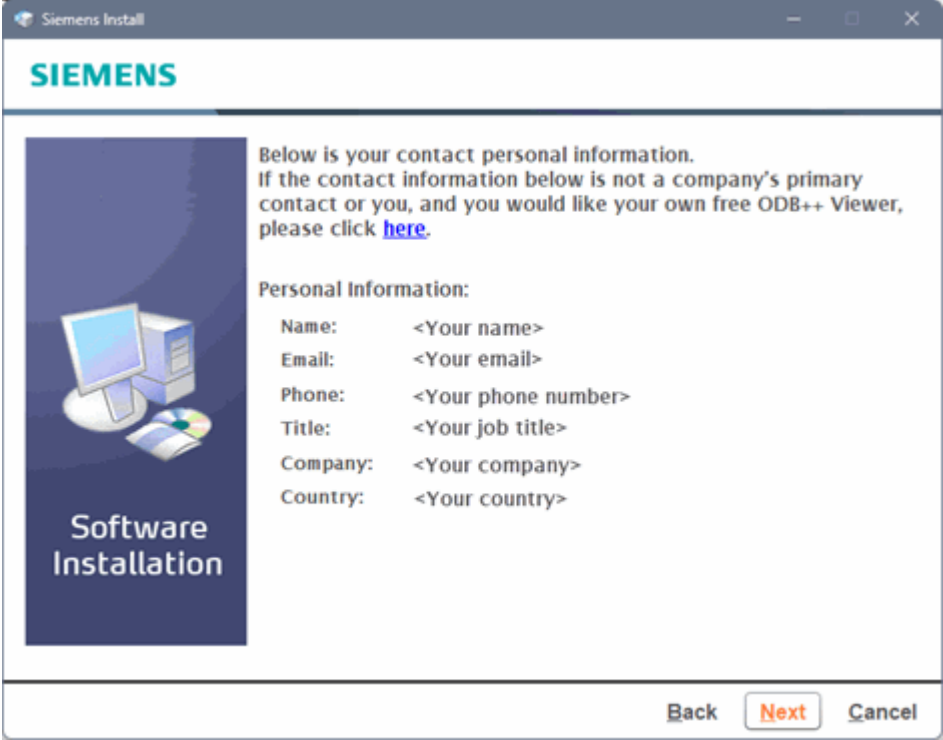

*ODB\_Viewer\_<ver>\_Windows\_64\_SA\_Setup.exe*

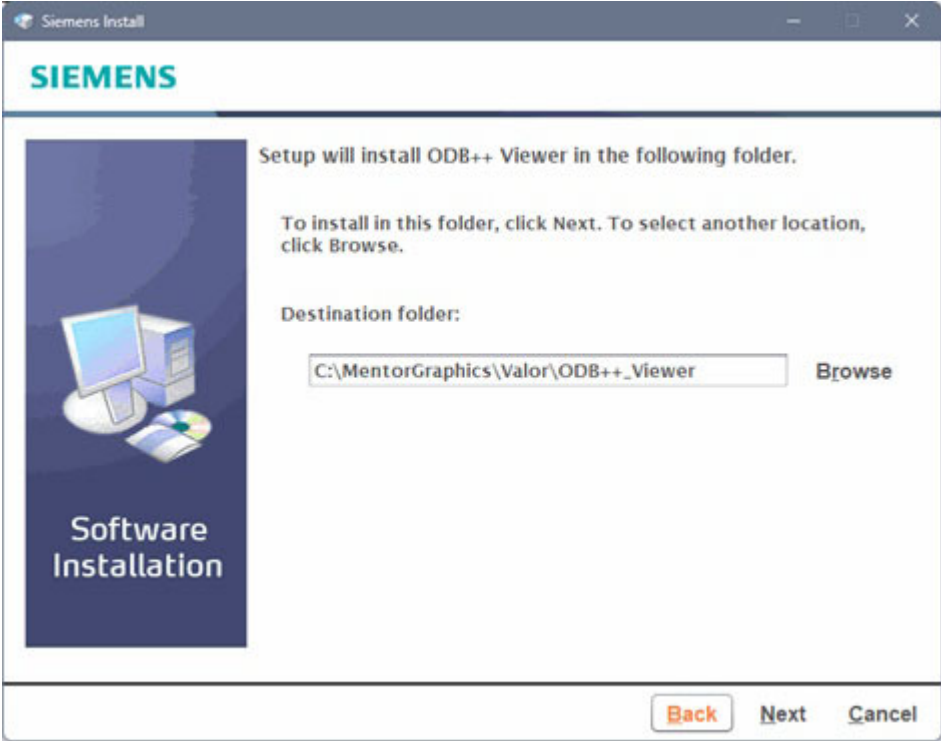

5. Provide the information requested by the wizard:

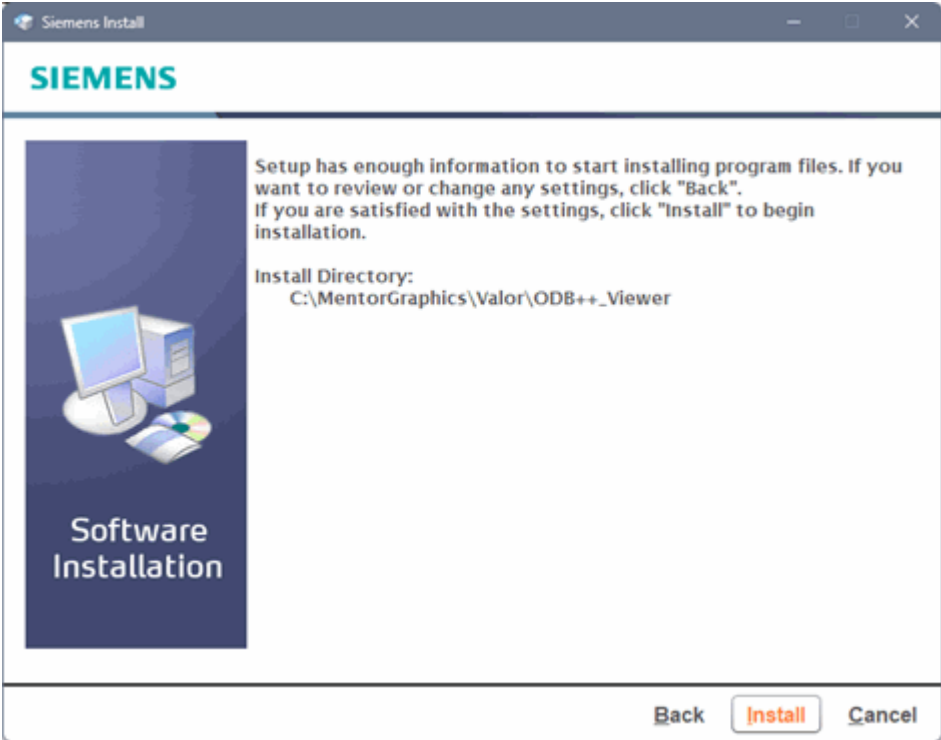

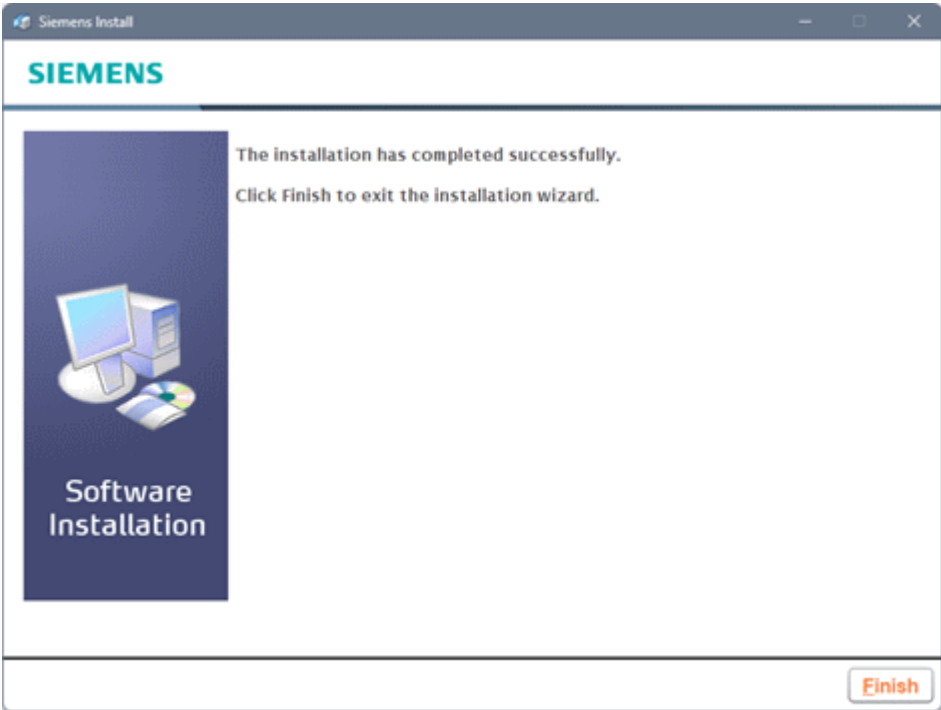

Page	Description
Welcome page	<p>Read the warning and click <b>Next</b>.</p> here.' and has 'Next' and 'Cancel' buttons at the bottom right." data-bbox="295 175 870 525"/>

Page	Description
Copyright and Legal Notices	<p>Carefully read and click <b>Agree</b> to accept the license agreement.</p>  <p>This software is governed by the terms and conditions found at <a href="https://www.plm.automation.siemens.com/global/en/legal/online-terms/eula-with-eda-and-embedded-supplemental.html">https://www.plm.automation.siemens.com/global/en/legal/online-terms/eula-with-eda-and-embedded-supplemental.html</a>. However, such online terms and conditions will not supersede the terms and conditions of any applicable signed agreement governing the use of this software that was entered between you and the licensor from which you are receiving the software.</p> <p>Having read the entire applicable license, I agree as authorized representative to accept the terms and conditions of this legally enforceable agreement governing the use of this software.</p> <p><b>Agree</b> <b>Disagree</b></p>

Software Registration	<p>Provide the registration key:</p> <ol style="list-style-type: none"><li>1. Within the folder to which you extracted the installation package, open the <i>readme.txt</i> file in a text editor.</li><li>2. Locate the Registration Key value and copy it into the wizard.</li></ol> 

Page	Description
Contact Personal Information	<p>Verify that the contact information is correct.</p> <p>If required, register a new installation of ODB++ Viewer:</p> <ol style="list-style-type: none"> <li>1. Click the link to access a blank Download Form in the browser.</li> <li>2. Type in the required information and click <b>Free Download</b>.</li> <li>3. Copy the new registration key to clipboard.</li> <li>4. In the wizard, click <b>Back</b> and paste the copied value into the Registration Key field.</li> </ol> 

Page	Description
ODB++ Viewer Installation Directory	<p>Specify the location where the ODB++ Viewer application will be installed. Use the default location, or browse to a different location, and click <b>Next</b>.</p> 

Page	Description
Installation Ready	<p>Check the path to the install directory. If necessary, click <b>Back</b> to review or change any settings. When satisfied, click <b>Install</b>.</p> 
Installation Completed	<p>Click <b>Finish</b>.</p> 

## Results

Refer to the *ODB++ Viewer User Guide* for instructions on how to interactively review ODB++D product models.

# Installation Directory Structure

The ODB++ Viewer installation results in files stored in several directories.

- **ODB++ Viewer Installation Directory** — The location where ODB++ Viewer Application Directories for each version are installed.

Default path:

*C:\MentorGraphics\ODB++\_Viewer*

- **ODB++ Viewer Application Directory** — Contains ODB++ Viewer executables and other installed files, and cannot be altered by the user. The directory naming is version-specific.

Default path:

*<ODB++ Viewer Installation Directory>\odbviewer\_<ver>*

The environment variable VALOR\_EDIR points to the *edir* subdirectory under the ODB++ Viewer Application Directory.

The file *%VALOR\_EDIR%\env\_file* contains Valor environment variables set during installation. The settings defined in this file are not overwritten during an upgrade.

# Troubleshooting the ODB++ Viewer Installation

These issues might be encountered during or after ODB++ Viewer installation.

Issue	Explanation
TCP/IP errors in stand-alone mode	<p>ODB++ Viewer requires that TCP/IP be installed even on stand-alone computers. Make sure that TCP/IP networking is installed, and that there is a network adapter for TCP/IP.</p> <ul style="list-style-type: none"> <li>• If TCP/IP is not installed, install it.</li> <li>• If no network adapter is installed, install one.</li> <li>• If the computer has no network card, install MS Loopback adapter.</li> </ul>
File Not Found when loading the system	<p>If the system does not load, check that the QT shared library file is available at the appropriate location:</p> <p><i>%VALOR_EDIR%\nv\deps\valor_qt_514</i></p>
Sort and find commands fail when run from scripts	<p>The sort and find commands are built into Windows in <i>/winnt/system32</i>. If they fail, perform one of these actions:</p> <ul style="list-style-type: none"> <li>• Put the string <i>%VALOR_EDIR%\nv\bin</i> in your path before <i>\winnt\system32</i></li> <li>• Alias sort to <i>%VALOR_EDIR%\nv\bin\sort</i> in startup scripts. Alias find to <i>%VALOR_EDIR%\nv\bin\find</i> in startup scripts.</li> </ul>
